Halo

Expat living in Germany between Berlin and Hamburg and considered a HT.

Does anyone know if there is a list of top HT clinics in Germany?

I came across KO HAIR - they seem good but I don't know anything about them.

A lot of people seem to be mentioning clinics in Belgium? Is there a reason why this is so?
Cheaper than Germany?

Sorry about writing in English. But please feel free to reply in German

Thank you all.
