Heilmann-Heimbach, S., Hochfeld, L. M., Paus, R., & Nöthen, M. M. (2016). Hunting the genes in male-pattern alopecia: how important are they, how close are we and what will they tell us?. *Experimental Dermatology*.

Link

Abstract

Androgenetic alopecia (AGA) is a highly heritable condition, and the most common form of hair loss in men. The phenotype is characterized by an androgen-dependent, progressive loss of hair from the scalp, which may commence during puberty...
