Hi,

Which color conditioner/Shampoo (like back2natural) are you using, which is also available in Germany?

thx

Hey Sawun,

I use Hair Color plus Black By Arcos. Its like back2natural.

Hair color plus black are drops u need to mix it with warm/Hot water. I use 15-20 drops depends on how much water u need.

Thanks Fresh for the recommendation. I'll try them.

i searched in google and i didn't find the instruction-to-use not even in deutsch.

Could you explain how exactly you use?

do you use it after shampooing your hairs?

how long you leave it before washing?

is there any risk that it will stain your hairpiece?

Thanks

Take your hairsystem off, use just shampoo for clean the hairsystem.

1. Take a bowl and Fill it with warm water 1L (warm from the tap).

2. use the drops 15-20. mixed it.

3. now you put your hairsystem in the bowl of mixed water. I leave it overnight. Of course you can leave it for 30-45 mins, only then its not so intense, in my opinion.

4. after you leave it, wash u hairsystem as usual. Dont be surprised if color comes out while you wash. Its totally normal.

If the water still contains color then you should know that didnt work Right. The hairsystem should pick up the drops (color).

Thats what im doing, i hope i could help. U need to try it on your own, that you know how much

Let me know if it worked for you too.

If your hair color is already gone, dont expect miracles. Its just a hair color freshener.

And it will be gone after few hairwashes.
